Module description: Bachelor's Thesis		
Module Code	w.BA.XX.3Bar-BO-FLEX.XX	
ECTS Credits	15	
Language of Instruction/Examination	German	
Module Description	Students produce a research paper (the Bachelor's thesis) based on scientific principles. This is an individual piece of work on a topic that is either scientific or practical in nature. In doing so, students address an issue they have chosen or one that has been selected for them. They analyze the task at hand, conduct an in-depth analysis of the situation, and on that basis formulate recommendations for resolving the problem at hand. In this context, students apply the knowledge and skills they have acquired over the course of their studies in a purpose-oriented, effective, and efficient way while acquiring additional specialist knowledge. The Bachelor's thesis thus reflects students' capacity to perform and increase this capability as a result of completing the degree program.	
Organizational Unit	Lehre General Management	
Module Coordinator	Stefan Schuppisser	
Deputy Module Coordinator	Maximilian Müller	
Program and Specialization	<ul style="list-style-type: none"> • Business Administration - Specialization in Banking and Finance (FLEX) • Business Administration - Specialization in General Management (Flex) 	
Legal Framework	Academic Regulations BSc dated 29.01.2009, for the degree programs in Business Administration, International Management, Business Information Technology, Business Law, Business Law and Applied Law, first adopted on 12.05.2009	
Module Category	Module Type Compulsory	Program Phase Main Study Period
Prerequisite Knowledge	The compulsory modules of their degree program and specialization.	
Contribution to Program Learning Objectives (by the concerned Module)	<ul style="list-style-type: none"> • Professional Competence • Methodological Competence • Social Competence • Self-Competence 	
Contribution to Program Learning Objectives	<p>Professional Competence</p> <ul style="list-style-type: none"> • Knowing and Understanding Content of Theoretical and Practical Relevance • Apply, Analyze, and Synthesize Content of Theoretical and Practical Relevance • Evaluate Content of Theoretical and Practical Relevance <p>Methodological Competence</p> <ul style="list-style-type: none"> • Problem-Solving & Critical Thinking • Scientific Methodology • Work Methods, Techniques, and Procedures • Information Literacy • Creativity & Innovation <p>Social Competence</p> <ul style="list-style-type: none"> • Written Communication • Oral Communication • Intercultural Insight & Ability to Change Perspective <p>Self-Competence</p> <ul style="list-style-type: none"> • Self-Management & Self-Reflection • Ethical & Social Responsibility • Learning & Change
