

## Valid from 2025.FS

Module description	on: Corporate and Tax La	aw			
Module Code	w.BA.XX.3UStR-FLEX.XX				
ECTS Credits	6				
Language of Instruction/Examination	German				
Module Description	Students gain an overview of the Swiss taxation law system and its legal foundations. They recognize the commercial points of contact and implications of taxation and are able to derive principles of the taxation system from this. As a prerequisite, students also need to be able to interlink the basic principles of Swiss corporate law (structure of legal entities, responsibilities, rights and duties of those involved, and corporate bodies). Students transfer basic taxation principles to specific issues and analyze the legal consequences. Students differentiate between the various categories of taxation for forms of commercial activity and gain an overview of their obvious taxation similarities/differences. They analyze the interrelations between taxation consequences and specific commercial decision-making problems (e.g., choice of legal entity) and recognize the problems of double taxation for business owners and shareholders of incorporated enterprises.				
Organizational Unit	Abteilung Business Law				
Module Coordinator	Jens Hanebrink				
Deputy Module Coordinator	Lothar Matthias Jansen				
Program and Specialization	Business Administration - Specialization in Banking and Finance (FLEX)				
Legal Framework	Academic Regulations BSc dated 29.01.2009, for the degree programs in Business Administration, International Management, Business Information Technology, Business Law, Business Law and Applied Law, first adopted on 12.05.2009				
Module Category	Module Type Compulsory	Program Phase Main Study Period
