

| Module description: Introduction to Finance | | |
|--|--|--|
| Module Code | w.BA.XX.IFin-IM.25HS | |
| ECTS Credits | 6 | |
| Language of Instruction/Examination | English | |
| Module Description | <p>This module introduces students to the fundamental principles of modern financial management and equips them with the analytical tools needed to make value-enhancing business decisions. Building on the core concepts of valuation, risk, and return, the course covers topics such as the time value of money, bond and stock valuation, investment decision rules, portfolio theory, the Capital Asset Pricing Model (CAPM), and the estimation of a firm's cost of capital. Students further explore capital structure choices, financial distress, managerial incentives, and information asymmetries, complemented by an introduction to financial options and key long-term and short-term financing decisions.</p> | |
