Module description: Advanced International Research Projects	
Module Code	w.MA.XX.AIREP-PiE.19HS
ECTS Credits	6
Language of Instruction/Examination	English
Module Description	Students participate in application-oriented research projects. They consolidate their professional, methodological, and social competence and further develop the methodological expertise acquired in the IREP module. They combine their methodological competence with applications in their field of study and thus improve their professional competence. The topics they work on must have a high degree of practical relevance. The practically oriented research projects students complete must comply with academic standards in terms of structure, methodology, analysis, innovative nature of content, and relevance. Mere consulting or service projects must be avoided. The research topic must be complex and suitable for investigation using scientific methods.
